### PROGRAMMING LANGUAGES

- C++ ★★★★★
- C# ★★★★★

Familiar with Java, Javascript, & Python

### ENGINES & TOOLS

- Self-Built C++ Game Engine
- Unity
- Git

### TECHNICAL AREAS

- Object-Oriented Programming
- Systems Design
- Real-Time Systems
- Performance Profiling & Optimization
- Networking(UDP, Client-Server)
- Rendering & Post-Processing
- Gameplay Programming
- Game AI (Behavior Trees, Steering Behaviors,GOAP)GOA
- AI-Assisted Development (structured workflows for rapid prototyping, debugging, and iteration with full code ownership)

### PROFILE

I'm looking for a Junior Programmer role, or a similar opening where I can grow and contribute. I'm a quick study with a background in game development, C++, C# and Unity, and I enjoy working with structured systems where different parts need to fit together clearly.

Before programming, I worked in several different fields, including service, retail, hospitality, and theatre. I did not take the straightest road into programming, but I picked up a lot on the way. Those experiences taught me how to work with people, handle pressure, adapt quickly, and be part of everything from early planning to finished production. Programming is the path I want to keep building on.

My education at The Game Assembly is completed, including my internship, and I'm available immediately.

### PROJECTS

#### Måla Med Babblarna

- Built file system for persistent user data and implemented UX flows for responsive drawing.
- Enhanced existing drawing system and created a custom glitter shader

#### Barnvärlden - Minigames

- Developed two released minigames from scratch in a production environment.
- Ported a legacy minigame into a new system

#### BRIO World - Railway

- Contributed to gameplay systems in a shipped commercial title

### EDUCATION

**Game Programmer** 2023 - 2026  
The Game Assembly

**Theatre Arts** 2016 - 2018  
Actors Studio Stockholm

**Theatre Arts & English** 2015 - 2016  
Santa Barbara City College

**Physics & Math Highschool** 2010- 2013  
Technology | Åva Gymnasium

### WORK EXPERIENCE

**Filimundus** 2025 - 2026  
Programming Internship

- Was given main responsibility for driving an internal drawing game project forward, including implementation, testing, iteration, and feedback handling.
- Communicated with the project's orderer to clarify requirements, adjust priorities, and turn feedback into development tasks.
- Worked in teams with designers and programmers to build, test, and improve features.
- Used Unity and C# as main tools, alongside Bitbucket, TeamCity, AWS, and an agile workflow.

LANGUAGES

- English (Fluent)
- Swedish (Fluent)

Email : linus.feldt@filimundus.se

Hyre AB

2023 - 2025

Customer Service Representative

- Create and manage the marketing budget, ensuring efficient allocation of resources and optimizing ROI.
- Oversee market research to identify emerging trends, customer needs, and competitor strategies.

Coop

2020 - 2023

Supervisor & Sales Associate

- Handled daily store operations as floor supervisor when the manager was off duty. Supported staff, managed store routines, assisted customers, and helped keep the store running smoothly. Also worked with the café area and completed Svenska Spel training.

Hotel J

2018 - 2020

Front Office Manager

- Handled check-ins, check-outs, bookings, and conference arrangements. Supported guests during their stay, served food and drinks from the reception bar, and acted as the reception team’s IT contact for technical issues and daily system support.

Jack & Jones

2017 - 2019

Sales Associate

- Worked with clothing sales in-store, actively approaching customers, helping them find suitable products, giving style and product advice, and supporting the sales process through to purchase.

Brasseriegruppen

2015 - 2017

Café Supervisor | Barista | Bartender | Waiter

*Orangeriet Bar and Café*

- Worked in the bar, took customer orders, and served both food and drinks. Built experience in customer service, order handling, and maintaining a smooth service flow during busy shifts.

*Villa Godthem*

- Worked at the café register and helped oversee daily café operations. Coordinated communication between dishwashing, kitchen, and serving staff to keep service running smoothly. Also handled stock orders and helped ensure that food service, payments, and customer flow worked well throughout the day.

*Mangiardino*

- Worked in the bar preparing coffee, drinks, and food. Assisted guests with seating and orders, handled customer service tasks, and helped organize the bar area to support efficient daily service.

Hollister CO

2012 - 2014

Sales & Warehouse Associate

- Worked with both retail and warehouse tasks, including cashier duties, customer assistance, unpacking deliveries, and organizing stock.
- In my final year, I was responsible for Health and Safety, where I communicated safety procedures to colleagues and supported daily workplace compliance
